

DevOps Institute Continuing Education Units (CEUs) are earned through the completion of various educational activities that support the upskilling of DevOps professionals. This includes DevOps Institute and other approved, industry-recognized, DevOps-related formal training courses and certifications including the following:

- **DevOps Institute formal instructor-led or online training with an accredited [Education Partner](#)**
- **[DevOps Institute certifications](#)**
- **Other approved, technical, vendor-authorized DevOps courses and certifications covering competencies in areas such as:**
 - Agile
 - AI/MLOps
 - Automation and Tools
 - Chaos Engineering
 - CI/CD
 - Cloud
 - Container Orchestration
 - GitOps
 - Infrastructure as Code
 - ITSM
 - Monitoring, Logging, and Performance
 - Observability
 - Scrum
 - Security
 - Software Engineering
 - Testing
 - Value Stream Management

- **Human and Soft Skills formal training that support the development of non-technical skills to enable DevOps professionals to interact effectively with others in order to impact organizational culture, mindset, leadership, attitudes and behaviors. Examples include:**
 - Communication
 - Collaboration and Teamwork
 - Empathy and Interpersonal Skills
 - Emotional Intelligence
 - Remote Work
 - Diversity
 - Adaptability, etc.

Educational activities, including courses, certifications, events, etc., from other DevOps education providers that cover competencies already addressed by DevOps Institute's content and curriculum are NOT eligible for DevOps Institute Continuing Education Units.

Note: Regular audits will be performed to ensure CEUs are acceptable. CEU submissions that are not eligible will be deducted from the candidate's account and the candidate will be notified and may not qualify for certification renewal.
