

DevOps Leader (DOL)[®] Certification eLearning Course Description

Introduces new and innovative ways to organize and manage value streams using DevOps practices. Tailored for those engaged in a DevOps evolution.

DURATION: Approx 4-5 hours

ACCESS: Learners will have 90 days access to the online course

OVERVIEW

The DevOps Leader certification eLearning course is for learners who want to take a transformational leadership approach and make an impact within their organization by implementing DevOps. Leading people through a DevOps evolution requires new skills, tools, innovative thinking, and transformational leadership. Leaders up, down and across an organization must align and collaborate to break down silos and evolve the organization.

This online course highlights the human dynamics of cultural change and discusses practices, methods, and tools to engage people across the DevOps spectrum. Upon completion of the course, participants will have learned takeaways to leverage when back in the office such as understanding Value Stream Mapping.

The course was developed by leveraging key DevOps leadership sources to extract real-life best practices in leading DevOps initiatives and has been designed to teach the key differences and emerging practices for DevOps ways of working through leadership in a fast-paced DevOps and Agile environment.

Sample exam, value added resources, and DevOps glossary will also be provided for learners to download.

This certification positions learners to successfully complete the DevOps Leader exam.
